# KWIK LOK® "J" & "K" AUTOMATIC BAG CLOSURES

SERIES "J" STRIPLOKS®

## SERIES "J" (MEDIUM DUTY) & SERIES "K" (HEAVY DUTY) STRIPLOK BAG CLOSURES

The Series "J" and Series "K" closures are designed for use with our 1084, 1085, and 1087 Automatic Bag Closing Machines. The closures can be imprinted with price and/or date information as the bags are being closed. The closures are manufactured in seven plastic colors for color coding. The seven available lok opening sizes and optional heavy duty plastic enable the Kwik Lok closures to close a wide range of film and net bag packages.

Series "J" (Medium Duty) Striplok Closures are packaged 4,000 per roll, 15 rolls per carton (60M), and are available in seven plastic colors.

Series "K" (Heavy Duty) Striplok Closures are packaged 2,500 per roll, 15 rolls per carton (37.5M) and are available in red or white plastic only.

### ORDERING INFORMATION

When ordering Series "J" or Series "K" Striploks always specify the following: (1) Quantity, (2) Series, (3) Lok Opening Size, (4) Plastic Color(s).

**EXAMPLE:** 360,000 Series "J" Striploks, No. 1/A Lok Opening Size, Yellow Plastic.

## TO DETERMINE THE PROPER LOK OPENING SIZE

It is important that the proper lok opening size be used on all packages. To determine the correct opening, draw the bag neck material down into the lok opening as illustrated below. When this is done, there should be a slight clearance between the jaw points of the lok and the bag neck material. If there is any question, we recommend that you furnish us with 3 samples of each package (including contents) so that we can test them and make the proper selection for you.
